MAN: Well I, uh, I, uh...

MANLEY: Okay. We are recording.

MAN: And, uh...

MANLEY: All right. Good morning. Today's date is June 21 of 2017. The time is 8:46 am. We are in the Fifth Floor Conference Room at APD headquarters, and we have convened for Internal Affairs Case 2017-0038. This is a dismissal review hearing for Officer Iven Wall, uh, for an incident that occurred on January 8 of this year. Uh, we are looking at two specific policy violations, uh, Policy 618.3: Evidence Collection, Policy 306.6: Search Incident to Arrest. Um, Officer Wall, um, I'll - I'll go through the process that we're gonna do here shortly, but we are creating an official record. This meeting will be transcribed, so the first thing we will do as always is we will go around the room. Everyone will go ahead and state your name, spell your name, and your, uh, role here today, so that - that will be part of the official record. Uh, I will start. We will work our way around the room, and Officer Wall, we will end with you.

WALL: Yes, sir.

MANLEY: My name is Brian Manley, B-R-I-A-N, M-A-N-L-E-Y. I'm the chief of

40 police.

67  
68 CASADAY: Ken Casaday, K-E-N, C-A-S-A-D-A-Y, detective, and president of the Austin  
69 Police Association.  
70  
71 GUSTIN: Carol Gustin, C-A-R-O-L, G-U-S-T-I-N, s- CLEAT staff attorney.  
72  
73 WALL: Officer Iven Wall, it's I-V-E-N, W-A-L-L. My employee number is 5681.  
74  
75 MANLEY: Okay. Thank you. Officer Wall, have you been in a discipline hearing before?  
76  
77 WALL: No, sir.  
78  
79 MANLEY: Okay. So I'm gonna go over the process just so you understand how this will  
80 play out. I'm sure that - that your attorney has done that and the APA as well,  
81 but just to - to kinda go over that as we're - as we're about to get started. Um,  
82 here in just a few moments I'm gonna give you the opportunity to bring  
83 anything forward that you would like us to consider today. Uh, we are here to  
84 consider, uh, your continued employment with the department. Uh, we're c-  
85 looking at the incident that occurred on the 8th, two specific violations.

86                   Ultimately, uh, we need to come to a decision on whether we would sustain  
87                   either of these violations, and then if we were to sustain one or both of them,  
88                   what we think would be the appropriate level of discipline, up to and  
89                   including termination as you were noticed with. So today we're gonna hear  
90                   from you. Um, this has been a very thorough investigation. We have reviewed  
91                   the investigation. Um, but again this is your opportunity here in a few  
92                   moments to tell us anything that you would like us to consider or if there's  
93                   anything that you wanna make sure, uh, that you are clear on during your  
94                   interviews, um, ultimately leading up to when we as a chain of command will,  
95                   uh, will i- uh, have the discussions on - on this case.

96  
97   WALL:            Yes, sir.

98  
99   MANLEY:         Um, and then once you've given any statement that you may or may not  
100                   choose to make at th- at - at the beginning, um, then your chain of command,  
101                   we will have the opportunity to ask you clarifying questions or anything if  
102                   there's some things that we still need to get clear, um, to ensure that we come  
103                   to the, uh, the best decision today. Um, and then I will always afford, uh, on  
104                   the back end as we're about to conclude, if there's anything that you wanna  
105                   add, any last things you wanna say to us before, ultimately you will leave, and  
106                   we will then have a discussion.

107  
108   WALL:            Oh, I see.

109  
110   MANLEY:         And then Carol, for you as well if there's anything that you wanna bring up,  
111                   um, o- on - in the back end, there will be a time for that as well.

112  
113   GUSTIN:         Yes, sir. Thank you.

114  
115   MANLEY:         Okay? All right. So if everyone's clear, Officer Wall, um, if you want to, uh,  
116                   make any comments at this time, uh, of anything that you want us to consider,  
117                   uh, about what happened, uh, during this incident on the 8th, um, this would  
118                   be your opportunity to go ahead and make that opening.

119  
120   WALL:            Chief, I - I can assure you no one feels worse about what happened in the back  
121                   of my patrol car than I do. Um, it was my fault. I, uh, I didn't do the search  
122                   that I should've done and, uh, I - I didn't do it as adequately of a - as I should  
123                   have. Um, I'm - it's been a constant emotional rollercoaster, um, because, you  
124                   know, this did happen in my backseat. I can only imagine how the family  
125                   must feel, uh, [REDACTED] if that was [REDACTED] I can, uh, imagine  
126                   how badly they would feel, and I'm sorry for that. Um, I just - I know that s-  
127                   uh, since I've gone back to work, um, it's a constant reminder for me to make  
128                   sure I do a better search every time that I m- handle a person. Um, every time  
129                   I open the door I - the - the back door of the patrol car, I - I think about that  
130                   young man, um, Mr. Anam. Uh, every time I search a person, I think about  
131                   that young man. And the, um, the disciplinary portion that's looming over me

132 today will be final after today, um, but I'll still have to live with that, and  
133 that's something that'll take some time to get over.  
134

135 MANLEY: 'Kay. In reviewing the - the statements and - and - and the information that I  
136 have regardin' this case, um, it a- it appears as though there were at least a few  
137 different things that occurred that based on what I read and the statement that  
138 you made were - were somewhat out of character for you. Um, the - the fact  
139 that you conducted a pat down instead of a search, um, and then, uh, the  
140 disposal of the, uh, of the cutting tool, the multi-tool, but then there was  
141 something else you said that your normal practice would be as you got back  
142 out to your vehicle to search an arrested person again in front of the camera.  
143 And - and that didn't happen in this instance also.  
144

145 WALL: Yes, sir.  
146

147 MANLEY: I know that you were asked, uh, whether there was something going on that  
148 day, whether the - you know, why things may have been different, but I just -  
149 I wanna revisit that only for a moment, not to re-question you on the whole  
150 thing. But were th- uh - and - and - and - I - I - you know what, I don't - I - I  
151 just - I'll just l- I'll just ask you for just an op- an open-ended question of why  
152 do you believe that you did so many things that were out of your normal  
153 practice on this - on this instant?  
154

155 WALL: Chief, I - I don't know that - if it was just the fact that, um, I got in there and  
156 loss prevention had already pulled the things out of his pockets, and were even  
157 pointing things out to me that they had found. Um, then the frustration level, I  
158 guess, increased as he continued to lie to me about who he was, and I had to  
159 try to figure that part out on who he was. Um, and then going to the car, um, I  
160 don't know if I was just focused on gettin' him in the car because I was afraid  
161 that he was gonna try to escape possibly or something, and I - I really can't  
162 explain that, sir. I just - but no, it's not something I normally do, and it's not  
163 somethin' that's gonna happen again.  
164

165 MANLEY: Since you've returned what has your interaction been with other officers? I  
166 know you're under a do not discuss, so obviously you have not discussed the  
167 incident...  
168

169 WALL: Right.  
170

171 MANLEY: ...but, um, anything regarding, um, search protocols, anything like that? I'm  
172 not - I'm not tryin' to go after a do not discuss, anything like that. I'm just  
173 tryin' to understand what - how you've come back to work, um, and - and, uh,  
174 any questions you may have had come your way, or conversations, or - or how  
175 you've addressed that issue because obviously this resonated through the  
176 entire department?  
177

178 WALL: Most of the officers say that I - that have m- mentioned anything had just -  
179 have been supportive and said, "You know, I've messed up, too." And you  
180 know, "It - it could've been me." And, um, you know, I've - I've  
181 acknowledged just that I - I didn't do what I was supposed to do and, uh, you  
182 know, my - my hope is that, um, if you allow it that I can maybe go to the  
183 academy, and talk to cadets and, um, or show up, sir, whatever you would like  
184 for me to do and, um, just hammer this point home that - how important it is  
185 to do a good search. And, um, we can show parts of the video where whatever  
186 that may help drive that point home. I mean, 'cause I - to me, um, my feeling  
187 from Day 1, I've expressed this to Commander Connor, is that if my mistake  
188 saves the lives of another officer or a civilian, then everything that I'm goin'  
189 through here is worth it.  
190

191 MANLEY: You brought up something that we haven't talked about yet, saving the life of  
192 another officer. Things could have been very different that day had he had a  
193 different intention.  
194

195 WALL: Yes, sir.  
196

197 MANLEY: Um, to your own personal safety, and I know that's not lost on you.  
198

199 WALL: No, sir.  
200

201 MANLEY: ...or to the citizens that were walkin' around on 6th Street in downtown in that  
202 bar right there with all the glass windows. Um, I'm gonna go - we're gonna go  
203 to the chain of command, um, we'll go through the chain. If you do have a  
204 question, please state your name first so the transcriber will know who it is, in  
205 fact, asking the question so we'll start with Serg.  
206

207 LICHTER: This is Deanna Lichter, I'm Iven Wall's sergeant. I have an, uh - Chief  
208 Manley hit - was the Number 1 question, which was basically the why - why  
209 did this happen? My second - secondary, the question that I have for you is  
210 this was so out of what I know for you to be the norm. Uh, I felt in - initially I  
211 thought this was gonna be a training issue, but in reviewing the incident, I see  
212 that there was so many factors that led up to you not searching this per- this  
213 young man properly. How are you going to change your investigative work in  
214 the future and the process which you do your police work? I'd like to hear  
215 some concrete hows of what you're gonna do next time you respond to a  
216 shoplifting call or - or a family disturbance, just making sure that we're - we -  
217 I know and the department knows that this type of thing's not - I mean, it - it's  
218 so out of - like I said, so out of the norm that i- it's - it's sho- it was shocking  
219 to me to see. I feel like the shoplifting investigation wasn't conducted in - in a  
220 thorough process that you normally do. And - and this was very ty- very  
221 atypical of you. Um, and I'd like to know what concrete things you're gonna  
222 change in the future to make sure that this is not gonna happen in the future?  
223

224 WALL: I would say in - in this o- instance, ma'am, the one of the better things that w-  
225 I could've done and I could've had Officer Ricker dealin' with trying to figure  
226 out who he is. Um, that would've freed me up from that part and let me just  
227 do the investigation on what was at hand. And, um, but I - I tried to j- take the  
228 lead and just work through it and try to find out who he was. And so I was -  
229 normally had a knack be able to f- figure that out and, uh, that's always been a  
230 fun part of the job. But, um, I just have to be more methodical on - and go  
231 through each point and I know, uh, I'll never miss something like this again. I  
232 know that. I won't.

233

234 LICHTER: No other questions.

235

236 MANLEY: Anything else? Lieutenant?

237

238 HUGHES: Lieutenant Edmund Hughes. Um, I have no doubt that, um, every search that  
239 you do here on out will probably be more thorough than any other officers in  
240 this department just because of this incident. I can only imagine how you felt  
241 and, um, how that's gonna affect how you operate in the future. I have no  
242 doubt it's gonna be positive for your future events, and searching people, and  
243 things of that nature. I was glad to hear that you had brought up, um,  
244 mentioning speaking to cadets, maybe giving classes, and things like that of  
245 your own experience 'cause I think that would, um, be very valuable to our  
246 department as a whole. And, um, and I've gotten to know - know you over the  
247 time that I've been at this (out-sub), and I know you're a good officer. And  
248 there's no doubt in my mind that, uh, you're probably one of our best officers.  
249 And, um, I also understand that we're all human, and there's not a person in  
250 this room that hasn't made a mistake, that hasn't had a bad day. Um, to that  
251 person that walks around that never makes a mistake, doesn't do something  
252 wrong, um, although you have good faith, then you're not human - or I mean,  
253 we're not robots. But, um, there is a perception that, um, people not in law  
254 enforcement and people that we serve have of us. And, um, how they expect  
255 us to operate, and how they expect us to be. And, um, it may not seem much  
256 to them. It may seem like it's just an expected thing, but it's an impossible  
257 goal to achieve, but perception is everything. And, um, I'm very much aware  
258 of every action that I take that, um, I have to take full responsibility, and I  
259 think you have done that. Um, I think from the get go you took ownership of  
260 what happened out there because, you know, I - I thought about it for a long  
261 time, and there wasn't a - a moment that I thought that every officer down  
262 here, whether they knew it or not, had not missed something in their career on  
263 a search. It's impossible to find everything but...

264

265 MANLEY: Lieutenant, real quick. Uh, ar- all right th...

266

267 HUGHES: Uh...

268

269 MANLEY: All right, this is time for questions. All right, do you have a question?

270  
271 HUGHES: Yeah, and - and sir, I'm getting to my question.  
272  
273 MANLEY: Okay.  
274  
275 HUGHES: Let me wrap this up real quick. So my question for you would be, you know,  
276 taking all this into consideration and - and even mentioning giving classes and  
277 - and things of that nature, um, what - what do you think that you could do - I  
278 mean, what - how would you actually law something else where you could,  
279 um, take this past experience and - and make it beneficial to our department?  
280  
281 WALL: I think just the overall factor of what occurred, you know, in - in my backseat,  
282 and now I can back that up and just say: This is what happened. This is what  
283 led to that. And, you know, don't let this happen to you. Um, it's - it's  
284 somethin' that's, um, that will weigh on my conscience for the rest of my life.  
285 And, uh, I know that none of the other officers in here or...  
286  
287 HUGHES: Do you think...  
288  
289 WALL: ...anywhere else are gonna wanna deal with it.  
290  
291 HUGHES: This is something you could make a class out of and actually present...  
292  
293 WALL: Yes, sir.  
294  
295 HUGHES: ...with a lesson plan or, um, maybe annual training to the department?  
296  
297 WALL: Yes, sir.  
298  
299 HUGHES: Thank you. That's all I have.  
300  
301 WALL: And, uh, also I - if - if I'm afforded the opportunity to possibly be a part of the  
302 peer support and I - 'cause I saw how important that was because there were  
303 times, uh, the first few weeks especially, um, before I came back to work that  
304 I didn't know if I would make it through it 'cause it was that difficult, but I  
305 had a lotta blue family that was there to say: Hey, it's gonna be all right.  
306 You're gonna get through this. And, uh, you know, I'm - I'm proud that - that  
307 I had that family, and I'd like to be an assistant to - or be able to assist other  
308 officers in the future in critical incidents.  
309  
310 CONNOR: So kinda goin' back to somethin' that - that you - as you know, you mentioned  
311 in your IA statement, you mentioned when we talked a couple times as - as  
312 your desire to help other officers in the future, you know, a- as an example of  
313 talkin' to cadets. I mean, so I know, Lieutenant Hughes kinda touched on it a  
314 little bit. So to me, you know, you walk into a cadet class. What it - what is  
315 your message that - that you - if - if you were given that opportunity, what

316 kind of message w- t- what did you learn from this? I know now to go back  
317 and rehash everything, but just if you had your - your opening tagline, you  
318 know, what - what kind of learning message can you have just from the get go  
319 in your mind?  
320  
321 WALL: Just how important an adequate search is. I mean, that, um, that basically this  
322 policy is set there, um, the search policy is there to protect us and to protect  
323 the community. And, uh, these are...  
324  
325 MAN: The recorder just beeped (unintelligible).  
326  
327 MANLEY: It's still goin', but did that beep mean the battery is about to (dry)?  
328  
329 MAN: (Unintelligible)  
330  
331 MANLEY: Okay. It is still on though . So, uh, for the...  
332  
333 MAN: That one's still...  
334  
335 MANLEY: For the official record, we're starting a second recording in case this recorder  
336 dies.  
337  
338 CONNOR: Sorry. And then that last question was asked by Commander Connor, Pat  
339 Connor. I have no other questions.  
340  
341 DIXON: Um, my name is Frank Dixon. Um, so walkin' back through the event, not to  
342 has it out in its entirety, can you see steps along the way where there might've  
343 been some warning signs to lead you to stop everything and reassess kind of  
344 the overall picture as you're walkin' him to the car, um, after he gets in the  
345 backseat and he repeatedly asked for his handcuffs to be moved to the front,  
346 as you're drivin', the conversation starts taking kind of a different tone.  
347  
348 WALL: Yes, sir.  
349  
350 DIXON: Was there any point along that way where like the hair on the back of your  
351 neck stood up where you thought for any amount of time somethin's off. I  
352 need to stop and kinda reset?  
353  
354 MANLEY: For the...  
355  
356 MAN: That one's just...  
357  
358 MANLEY: Just for the official record, we're starting a second...  
359  
360 MAN: This is...  
361

362 MANLEY: ...recording in case this recorder dies.  
363

364 CONNOR: Sorry. And then that last question was asked by Commander Connor, Pat  
365 Connor. I have no other questions.  
366

367 DIXON: Uh, my name is Frank Dixon. Um, so walkin' back through the event, not to  
368 hash it out in its entirety, can you see the steps along the way where there  
369 might've been some warning signs to lead you to stop everything and reassess  
370 kind of the overall picture as you're walkin' him to the car, um, after he gets  
371 in the backseat, and he repeatedly asked for his handcuffs to be moved to the  
372 front, as you're drivin' the conversation starts taking kind of a different tone?  
373

374 WALL: Yes, sir.  
375

376 DIXON: Was there any point along that way where - like the hair on the back of your  
377 neck stood up where you thought for any amount of time somethin's off, I  
378 need to stop and kinda reset?  
379

380 WALL: Chief, goin' back through th- and seein' the video, and seein' him with the  
381 blank stare out the window, and that he was makin' that decision, and then,  
382 um, but that day I would say yes, the hair did stand on the back of my neck  
383 and that - the reason I, um, enlarged the video screen for the backseat so I  
384 could watch him, um, 'cause somethin' just didn't feel right. And, uh, you  
385 know, and then in hindsight, I mean, seein' that kind of history that he had,  
386 you know, um, if it was who we thought it was, it - then it should have made  
387 more hair stand up on the back of my neck at that time. I, um...  
388

389 MAN: (Unintelligible).  
390

391 WALL: Just sorry I didn't listen to my own intuition at that time. I don't know if  
392 halfway down there if I would (have) - I - I still don't know when he produced  
393 the weapon from his waistband. Um, I - I don't know if it would've changed  
394 anything if I stopped and opened the door, and I don't know that he might've  
395 started firin' at me when I opened the door. Um, I just wish I'd done it right  
396 the first time.  
397

398 DIXON: Nothing else (unintelligible).  
399

400 MANLEY: This is Chief Manley again. Uh, just two - well a couple of quick questions.  
401 Uh, I've mentioned the policies that we're looking at today, Officer Wall. The  
402 first one is 618.3: Evidence Collection. Uh, do you believe you violated that  
403 policy?  
404

405 WALL: Yes, sir.  
406

407 MANLEY: Okay. And then the second one is 306.6, Search Incident to Arrest.

408  
409 WALL: Yes, sir.  
410  
411 MANLEY: Do you believe that you violated that policy?  
412  
413 WALL: Yes, Chief.  
414  
415 MANLEY: Okay. Um, I don't have any more questions. Again, this case was pretty much  
416 spelled out for us before we came in the room today. Um, as you know what's  
417 gonna happen now in a moment, you will - you will leave along with your  
418 attorney, and the APA, and Internal Affairs, and the monitor. And your chain  
419 of command will sit in here and we will deliberate, um, this incident, what we  
420 know about it, and then as I mentioned earlier, whether we will sustain one or  
421 both of the charges. And then if we were to do so, what the appropriate  
422 discipline would be. So prior to us entering into that deliberation, is there  
423 anything else that you would like us to consider, um, or anything that you  
424 would like to highlight for us, um, before we move into that phase?  
425  
426 WALL: N- no, Chief.  
427  
428 MANLEY: 'Kay. Carol, did you have anything that, uh, you wanna put on the record?  
429  
430 GUSTIN: Y- yes.  
431  
432 MANLEY: Okay.  
433  
434 GUSTIN: Um, the - there's a couple of things. O- one is that Officer Wall has gone back  
435 to work. He's done a good job. Um, he has handled himself well when he has  
436 been asked these questions by other officers. He's willing to help his fellow  
437 officers and to ensure the safety of them and the public. Um, the other thing I  
438 think that is important is that Officer Wall has been very candid with  
439 everyone. He's been very forthcoming, and he is willing to utilize this bad  
440 experience, um, and maybe perhaps a - a - a glitch, if you will, in his normal  
441 practices. Um, 'cause I think you've heard from everyone that this is  
442 something that is an anomaly. It's not something that they have to worry about  
443 with Officer Wall. I - I'm asking you, Chief, take those things into  
444 consideration.  
445  
446 MANLEY: Thank you. All right. With that, unless there's anything else, uh, that we need  
447 to handle in the last minute, uh, I will go ahead and, um, end the official  
448 record for this portion. The time is now 9:11 am and we're going off record.  
449  
450 MAN: Chief, on the gray one, there's a hold button in the - on the side. Just push it  
451 down. And now hit the record. It all...  
452  
453 MANLEY: Okay. We are back on the record. The time is now 11:04 on June 21. Uh, here

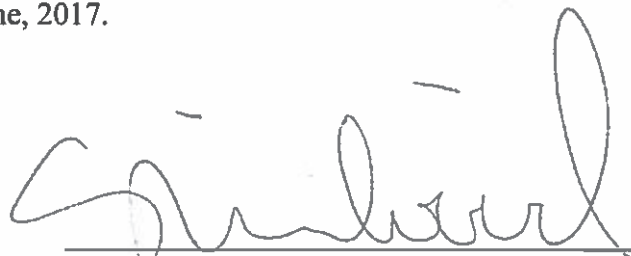

454 to conclude the dismissal review hearin' on IA Case 2017-0038 for Officer  
455 Iven Wall. Officer Wall, I know that, um, that, uh, you've already been  
456 spoken to, and you know what, uh, what the outcome of the deliberations  
457 were. Uh, but to go over them on the record. Uh, we initially, um, going over  
458 the policy allegations, uh, Policy 618.3: Evidence Collection. Uh, that policy  
459 is being, uh, sustained as a violation. Uh, we initially discussed Policy 306.6:  
460 Search Incident to Arrest, however, the appropriate policy is actually 306.3.1.  
461 And so the one that we went on the record with and that you were served  
462 notice is gonna be administratively closed as a duplicate to the Policy 306.3.1.  
463 Um, they're two different policies. 306.3.1 is the one that requires the officer  
464 to do the search upon an arrest. The one that was initially noted talks about  
465 what's permitted during a search, so to more appropriately reflect this  
466 incident, that is the one that is goi- is gonna be sustained. So, uh, just so you  
467 know when you see this, that we had just administratively closed the one that  
468 you were noticed on 'cause it is a duplicate of the one that - that is actually  
469 being sustained. Having sustained those two violations, your chain of  
470 command has deliberated, and I know you're aware that the recommendation  
471 was a 20-day agreed upon suspension, and it is my understanding that you,  
472 along with your attorney, are agreeing to take, uh, to take that suspension and  
473 agree to that. Is that, uh, correct?  
474

475 WALL: Yes, Chief.

476  
477 MANLEY: Okay. Uh, with that being said, uh, we will go ahead and go off the record and  
478 we will handle all of the necessary paperwork, uh, to, uh, close up this case.  
479 Uh, the time is now 11:05.
