EXTERNAL email: Exercise caution when opening.

I don't have s email address for Judge Stubblefield, so please pass on to him.

I have today filed instructions to the Supreme Court to remove my name from list of Judges who accept assignments.

This has been s extremely difficult decision for me. I believe that I am still in excess condition mentally and physical. The problem is that I simply have been lucky to get old, I have been in fear that I would or would not do something that could affect the outcome of some important legal matter.

I have loved my job all these years and knowing that I will never do again is difficult to accept.

I truly appreciate the opportunity and faith in me all these many year. THANK You!!!
