Subject: resignation

Good afternoon, Shelly,

When I came to this agency I had one goal in mind, to build a strong team of legal experts in the office of general counsel to provide outstanding legal advice on the multiple complex legal issues facing the agency during the 2019 legislative session and beyond.

When I look back at nearly three years to the day in which I have worked as general counsel at TxDMV, I feel a sense a pride. During my time I have been able to recruit and retain some of the top administrative attorneys in the state, implement the legislative requirements from two sessions, transform the way in which legal services are provided to the agency in a transparent and effective manner, as well as assist the board in their policy making function even as seven new members were appointed.

But like all good things, my tenure at the agency must come to an end. I tender my resignation with my last physical day at work being Thursday, February 10, 2022 and I will run out my annual leave time to the end of the month of February. Im happy to assist in the transition in any way you deem appropriate.

I thank my incredible staff for their dedication and hard work. I'm proud of the legal team I was able to assemble, and value the time I was able to work with and work for them. I know that my examples of leadership will live on so that this outstanding legal work will continue, and I recognize the hard work yet to come for the office and the agency.

Thank you,
Tracey Beaver
